## The ideal partner, offering unrivaled technology for the hospitality industry

LG's commercial TVs featuring innovative technology, such as OLED and IPS, deliver a new level of experience in hospitality. Our innovation continues to bring luxury to spaces thanks to ultra-slim designs, while adding value through revolutionary screen quality. As the ideal partner for the hospitality industry and constantly seeking to upscale its quality of service, LG commercial TV is the solution for hoteliers and their customers.

# LG COMMERCIAL TV HIGHLIGHTS

## OLED Technology & Design

LG commercial TV was created with a revolutionary OLED technology that redefined what was possible for display design and image quality. Direct light emission of OLED pixels obviated backlighting, allowing for an ultra-slim display. OLED pixels also display richer colors with vivid accuracy. LG developed the OLED wallpaper based on this revolutionary technology, creating an ultra-thin panel that virtually does away with thickness altogether. It is no wallflower, the astounding wallpaper design is eye-catching in any space and setting.

\* Actual product may differ from the image.

## UHD Resolution Models

UHD was once a novelty resolution in premium-level TV specification, but it is now the standard resolution for TV displays. As the next standard, UHD resolution is essential to servicing an enriched in-room experience. LG is leading the industry with a series of models supporting UHD resolution, delivering ultra-high customer satisfaction.

\* note that available lineup may vary by region

## IP Over Coax

IP Over Coax enables the service provider to provide interactive services to the guests over RF infrastructure. The DOCSIS Ready Set top box may be used to upgrade conventional stand alone boxes to smart boxes. The upgrade not only enables smart functions but also opens a communication channel with customers over RF infrastructure, eventually generating greater service engagement. The upgrade offers a new channel to engage customers without revamping the existing RF infrastructure, making it highly cost-effective. The Pro: Centric Smart box is built with Wi-Fi connectivity, providing alternative option for guests to connect to wireless stream IP data without LAN cables.

## LG Pro:Centric SMART with OLED

Pro:centric Smart with OLED lineup provides LG's smartest hotel TV solution while overcoming the limits of current displays in both picture quality and design.

# LG Pro:Centric SMART with OLED

## Why OLED Techonology

### Perfect Black. Intense Color

LG OLED TV provides richness in all colors, boasts aesthetic touch of nature, and reveals life. Equipped with over 8 million of self-lightning pixels operating individually, the product completes the Perfect Black.

### Picture-on-Glass, the Artistic Esthetics

Furnished with sleek design, the product takes its artistic aspect to the next level. As the need for distinct elements like bezel or a thick stand has been eliminated, the refined but aesthetically stifled design intensifies the viewing experience.

\* EU961H series have a single-pole stand.

## Cinematic Sound for Your Home

### Dolby Atmos®

Dolby Atmos® creates a dynamic and surround sound experiences although even when space is limited, facilitating the discernment of every details of the movement in a scene. With Dolby Vision™, the product provides a truly unique cinematic experience.

## 4K Cinema HDR

### Dolby Vision™ and HDR 10

LG 4K Cinema HDR offers the filmmaker's vision through usage of HDR formats. Now, a unique cinematic experience is available at hotel room with Dolby Vision™ and HDR 10.

# LG Pro:Centric SMART

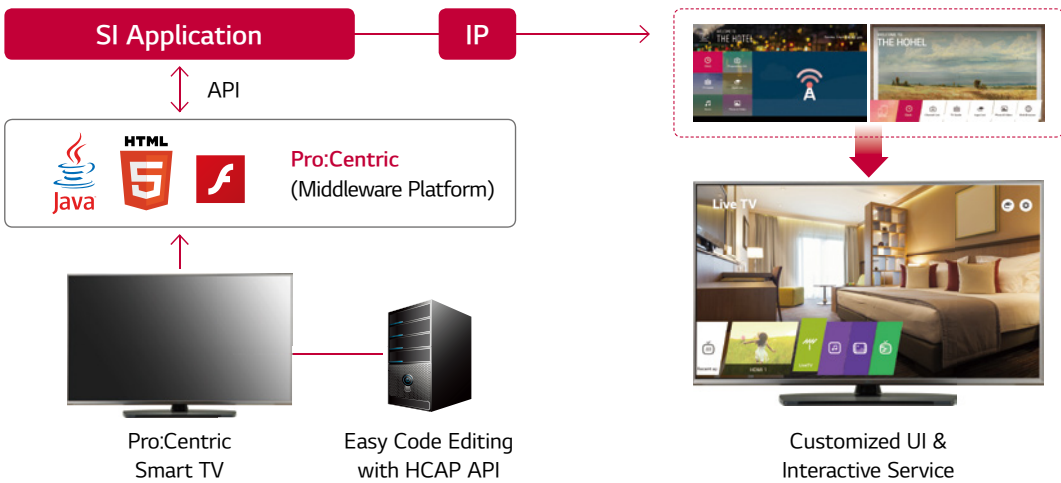

## A PREMIUM SMART SOLUTION VIA IP & RF NETWORK

Pro:Centric SMART is optimized for customizing hospitality services for hotel brands and guests through an IP & RF infrastructure. With its high picture quality, sophisticated design and advanced connectivity functions, it upscales in-room entertainment and increases convenience through implementation of high-end technology.

## Pro:Centric SMART Application Platform (IP)

LG Pro:Centric SMART offers extended customizable tools; HTML5, GEM and Flash. With these, the partners can optimize Commercial TVs to edit and develop their own enhanced service design. Also, it gives visual impact on and delivers messages to customers as users intend.

## Pro:Centric Server Application (RF)

You can now differentiate your hotel with our customizable templates and pages which can be specialized for your property. Pro:Centric provides you a solution that is easily customizable for your business.

**Various Features**  
PCA serves the convenience of the guest through a Wake-up setting, Weather Information, Map Service, and much more functions that you can choose.

**Customizable Template & Page**  
Choose an alternative look & feel template based on your reference, and edit multiple sections with 40 pages of billboards by yourself with the web based tool.

## Pro:Centric Direct Support (IP & RF)

Pro:Centric Direct is a hotel content management system that supports simple editing tools and provides various solutions such as 1-click service and IP-network-based remote management. With the solution, users enable to design UI easily and provide customized service while managing TV efficiently.

# LG Pro:Centric SMART

## ULTRA HD TV

### 4K Resolution

ULTRA HD is the future of digital picture, possessing four times higher resolution than that of full HD. Stunning 8.3 million pixels gives a flawless picture quality and incredibly vivid detail.

### 4K Upscaler

Enjoy Full HD content in 4K ULTRA HD quality. The 4K Upscaler automatically upgrades Full HD content to ULTRA HD through the six steps of the upscaling processes.

## Smart Connectivity

### SmartShare

SmartShare allows users to share content more easily and quickly. It also searches for the content they want in order to share it more easily and accurately, there by simplifying the process of sharing between various devices.

### ScreenShare

Connect a smartphone or a laptop PC to TV via a Wi-Fi Direct connection. The TV will display the device's screen, and users can share their content and memories together.

### Bluetooth Audio Playback

Bluetooth Audio Playback enables users to listen to music on a mobile device through TV speakers via Bluetooth connection.

\* Support devices for Bluetooth Audio Playback :  
Android (above v4.4 KitKat) / iOS based Mobile Device

## Smart Experience

### webRTC Ready

webRTC provides an application development environment for video calling, video chat and P2P (Person-to-Person) file sharing. Guests can look at and communicate each other without visiting rooms.

\* Separate server or SI's webRTC-based-telecommunication solution is required for telecommunication between two TV sets.

### SoftAP

SoftAP means Software enabled Access Point. This "Virtual" Wi-Fi feature executes by software working on the device to create a wireless hotspot.

\* SoftAP should be set in installation menu after TV is on.  
\* Smart Mirroring may not be operated at the same time.

### Customizable App

Customizable app by web OS displays hotel information for guests. No need to purchase a server / solutions or install network infrastructure.

\* Up to five customizable apps are available to be added and organized in the launcher bar.

## Smart Management

### Remote Diagnostics

Save big on the expenses of managing the commercial TVs with Remote Diagnostics. Real-time Remote Diagnostics report detects error in advance to prevent TVs from any malfunction.

# LG Pro:Centric v

## COMPREHENSIVE HOSPITALITY SOLUTION VIA RF NETWORK

Pro:Centric V provides comprehensive solutions in RF infrastructure. Through the Pro:Centric Server and Application, hoteliers are able to customize their settings in line with hotel branding concepts and deliver information on hotel facilities and wake-up call services, weather forecasts and other messages to guests, all while reinforcing the hotel's brand image.

## Pro:Centric Application Version 3.7 Upgraded Features

Pro:Centric Application v. 3.7 provides more intuitive and elegant templates than the previous version, and is available in 3 additional languages. This makes it easier for guests to access information and enables managers to deliver messages in a more effective way.

### New Templates

Pro:Centric Application (PCA) v. 3.8 provides one new template, making a total of three templates, that customers can select according to their preference.

Welcome Image of PCA v3.7

### 39 Languages

39 languages including Hebrew, Arabic and Farsi, and language alignment are supported, making your guests' stay a more comfortable one.

Right Alignment  
(Hebrew, Arabic, Farsi)

Left Alignment  
(36 languages)

## Easy Content Creation & Management

### Customizable Template & Page

Choose an alternative look & feel template based on your preference, and edit multiple sections with 40 pages of billboards by yourself with the web based tool. (Max 15pages / section Available)

\* Based on PCA 3.7

### Multi Channel Spooling

Operation of up to 8 hotel channels (22 sub-channels) can offer various information and added services.

## PMS Interfaced Services

The Pro:Centric Application offers guest-centric services, such as a welcome page with the guest's name, auto language setting and billing information with the Property Management System (PMS) interface.

### Welcome Message

Warm greeting message including guest's name.

### Automatic Language Setting

Default language settings based on the guest's nationality.

### Billing Info

Guest's billing information automatically updated via PMS.

# LG Pro:Centric v

## Features

### EzManger

EzManager provides convenient installation function that helps to set up Pro:Centric TV settings automatically without extra effort of configuration. Auto-installation requires 1~3 minutes while manual installation requires 3~5 minutes.

### Instant On

The high speed loading system enables users to enjoy content immediately after turning on the TV.

### New Quick Menu (2.0)

You can enjoy LG's simple home menu solution. It provides editable welcome message, date/time and other frequently used menus in the form of bar. These can be all set with a remote control or USB, and guests are able to easily access the menus they want improving satisfaction of their stay.

4 Templates

### External Power Out

No extra set-top box power cable is necessary for STB usage. Just connect your STB to LG Hotel TV without a need for extra power but be supplied all from LG Hotel TV.

### Welcome Video/screen

Easily attach an external clock to your hospitality TV. Guests can quickly check the time just by looking at the TV, and all it needs is an RGB interface connection.

### One Channel Map

The One Channel Map feature allows users to edit and list the channels of their choosing from any of the various broadcasting signals.

### Commercial Swivel Stand

Expand the rage of comfort for the guests with a commercial grade stand by allowing them to watch a TV from any angle.

# TV Signage (Commercial Lite)

## ESSENTIAL COMMERCIAL TVS TAILORED TO COMMERCIAL ENVIRONMENTS

Improve management efficiency and offer a warmer welcome to guests. Featuring Welcome Video / Image, USB Cloning and other convenient functions, LG Commercial Lite TVs are able to lighten the management burden and make customers feel cared for in numerous business environments.

### Features

#### USB Auto Playback+

Create and sequentially play playlists composed of informative media (video, music and image) you choose without PC and any installation.

#### Time scheduler

Create your own time scheduler of your Commercial TV. Once you set opening/ closing hours and holidays, the TV will turn on/off according to work schedule.

#### USB Data Cloning

USB data cloning makes managing multiple displays more efficient for optimal operation, since users don't have to set up each display one by one. Once users copy data to a USB in one display, it will be easily distributed to others through a USB plug-in.

#### Welcome Video / screen

With the capability to display repeatedly various video formats as well as images, Commercial Lite TVs allow for a greater variation of greeting messages in hotel rooms which make customers feel more welcome and cared for.

#### Hotel Mode

Be in total control with Hotel Mode. Have the capability to change every TV setting, or reset to default in every room.

#### Multi IR

Multi IR function eliminates the remote control signal interference between TVs in multiple dwelling beds. This system will work using the same LG TV model.

# TV Signage (Commercial Lite)

## Features

### External Speaker Out

Enhance the entertainment experience by adding an additional speaker. Guests listen to and control the TV audio from anywhere in the business areas, including restrooms.

### IR Out

Using the interactive set-top-box, all LG TVs can be controlled with a single remote.

### RS-232C

Via the TV's RS-232C port, you can remotely control power and volume settings simultaneously.

### Compatibility with AV Control Systems

This LG TV has Crestron Connected® (Network Based Control) Certification, a function that is dedicated to meeting room and that meets the growing need in corporate meeting space market.

\*Except for LW341C, LV300C

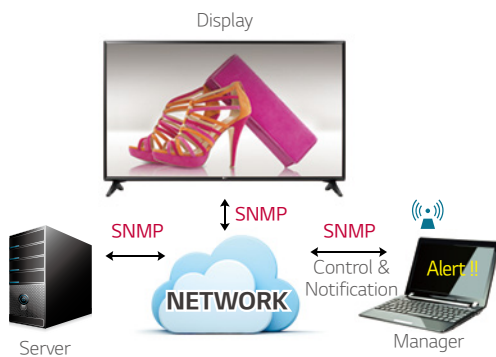

### Wake-up On LAN

WOL is the Ethernet computer networking standard to turn on TV or PC by transferring a network message. The message is transferred through another computer connected the same local areas.

### SNMP

SNMP (Simple Network Management Protocol) ensures convenient network management for SI and business managers.

# TV Signage (Smart TV Signage)

## LIVE TV AND ADVERTISEMENTS ON ONE SCREEN

Smart TV Signage enables both TV broadcasting and promotional display in one screen via a built-in TV tuner. With Smart TV Signage, managers can efficiently and timely deliver messages / promotion while customers enjoy watching live TV simultaneously. Smart TV Signage will help you to achieve ease of efficient operation.

- Crestron Connected® (Network Based Control)
- WOL (Wake On LAN), SNMP
- Media Share via Built-in WiFi
- RTC (Real Time Clock), NTP (Network Time Protocol)
- Pre-loaded YouTube App, Web Browser

## Features

### Embedded Content Management & Group Management

The embedded Content Management & Group Management System allows you to edit and play content, schedule a playlist and even group and control signages via remote control, mouse or even mobile phone, without needing a separate PC or software. This makes content management much easier and user-friendly.

### USB Data Cloning

USB data cloning makes managing multiple displays more efficient for optimal operation, since users don't have to set up each display one by one. Once users copy data to a USB in one display, it will be easily distributed to others through a USB plug-in.

### RTC

Save time and improve convenience with RTC (Real Time Clock). When the TV's power is off, time information is stored on the RTC module via an internal memory, and a time sync process can be omitted as the TV turns on.

### NTP

With NTP (Network Time Protocol), the TV receives real time updates from the network and synchronizes its time accordingly.

## SuperSign Solutions

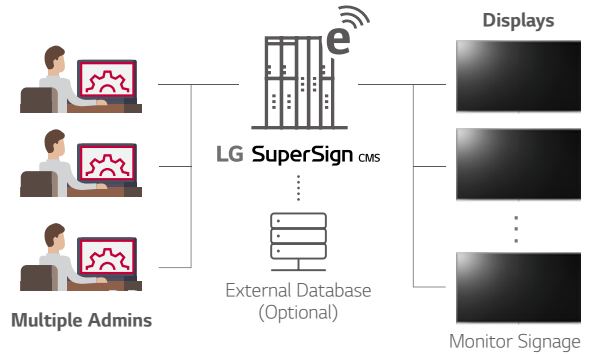

### SuperSign Control

SuperSign Control is a basic control software. Up to 100 displays are controlled by one account with a single server. Essential factors such as power, volume, scheduling can be remotely adjusted, with firmware updates supported.

### SuperSign CMS

SuperSign CMS is a content management software solution optimized for LG webOS signage. It supports multiple displays and accounts, is able to be linked to external databases, and allows server access from mobile devices.

# Healthcare TV (Arm TV)

## PERSONAL HEALTHCARE SMART TOUCH SCREEN TV

Provide your patients with the smart solution, LG ARM TV, for a superior hospital experience. It enables personalized interactive service with its multi-touch screen and webOS operating system, which is the optimal platform for Patient Engagement Providers in the industry. Its industrial panel is durable and will sustain long operation. And the LG IPS panel technology provides great viewing angles for multiple viewers in a hospital environment.

\* Actual product appearance may differ from the above simulated scene.

15.6"  
**LU766A**

EU

- Full HD
- Pro:Centric(Smart, V, Direct)
- Plastic Housing with Antimicrobial properties
- Protection Cover (Glass)
- Multi-touch Display
- Mounts Compatibility (VESA mount)
- Replaceable Headphone Jack

## Features

### Intuitive Multi-touch Display

This touch screen recognizes the presence of more than two points of contact with the surface, allowing more users in a hospital setting to experience interactive services (e.g., doctor and patient) and entertainment (e.g., patient and family).

### Reliable Operation

Industrial panel located inside allows the product to sustain long operation hours. So, LG ARM TV is a reliable TV solution that can be used in hospital environment without a need for addressing unexpected fault.

### Antibacterial Properties Applied

Antimicrobial properties applied to Plastic Housing of LU766A series. It treated plastic housing conforms with ISO 22196 standard measuring antimicrobial activity that inhibits the growth of bacteria that may affect the plastic housing. Thus, it is necessary for enhanced Medical Environment(Medical Efficacy).

### Cleanliness, Safety and Convenience

LU766A series LCD panels are designed to be able to be cleaned or used thoroughly without issues, and the stylish, rounded corners of the TV reduce the possibility of injury due to accidental bumping into staff, patients or family visitors.
