The ideal partner, offering unrivaled technology for the hospitality industry

LG's commercial TVs featuring innovative technology, such as OLED and IPS, deliver a new level of experience in hospitality. Our innovation continues to bring luxury to spaces thanks to ultra-slim designs, while adding value through revolutionary screen quality. As the ideal partner for the hospitality industry and constantly seeking to upscale its quality of service, LG commercial TV is the solution for hoteliers and their customers.

TV Signage (Commercial Lite)

ESSENTIAL COMMERCIAL TVS TAILORED TO COMMERCIAL ENVIRONMENTS

Improve management efficiency and offer a warmer welcome to guests. Featuring Welcome Video / Image, USB Cloning and other convenient functions, LG Commercial Lite TVs are able to lighten the management burden and make customers feel cared for in numerous business environments.

Features

USB Auto Playback+

Create and sequentially play playlists composed of informative media (video, music and image) you choose without PC and any installation.

Time scheduler

Create your own time scheduler of your Commercial TV. Once you set opening/ closing hours and holidays, the TV will turn on/off according to work schedule.

USB Data Cloning

USB data cloning makes managing multiple displays more efficient for optimal operation, since users don't have to set up each display one by one. Once users copy data to a USB in one display, it will be easily distributed to others through a USB plug-in.

Welcome Video / screen

With the capability to display repeatedly various video formats as well as images, Commercial Lite TVs allow for a greater variation of greeting messages in hotel rooms which make customers feel more welcome and cared for.

Hotel Mode

Be in total control with Hotel Mode. Have the capability to change every TV setting, or reset to default in every room.

Multi IR

Multi IR function eliminates the remote control signal interference between TVs in multiple dwelling beds. This system will work using the same LG TV model.

TV Signage (Commercial Lite)

Features

External Speaker Out

Enhance the entertainment experience by adding an additional speaker. Guests listen to and control the TV audio from anywhere in the business areas, including restrooms.

IR Out

Using the interactive set-top-box, all LG TVs can be controlled with a single remote.

RS-232C

Via the TV's RS-232C port, you can remotely control power and volume settings simultaneously.

Compatibility with AV Control Systems

This LG TV has Crestron Connected® (Network Based Control) Certification, a function that is dedicated to meeting room and that meets the growing need in corporate meeting space market.

*Except for LW341C, LV300C

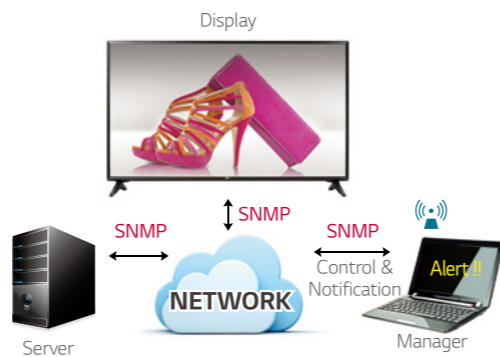

Wake-up On LAN

WOL is the Ethernet computer networking standard to turn on TV or PC by transferring a network message. The message is transferred through another computer connected the same local areas.

SNMP

SNMP (Simple Network Management Protocol) ensures convenient network management for SI and business managers.
