SMA Storage XL Package

Usability. Reliable. Full of energy.

powered by
ennexOS

Integrated system support

- Commissioning assistance
- Comprehensive service for the entire system

Flexible and future-proof solution

- Scalable in terms of AC and storage capacity
- Use with or without a PV system
- High-quality battery cells for up to 12000 charging cycles
- 10-year system and battery capacity warranty

Intelligent and reliable energy management

- Increased self-consumption, peak load shaving, and multiuse
- Schedule-based controls
- Monitoring via SMA Sunny Portal powered by ennexOS

Industry-leading cybersecurity

- Built-in access control with enforced passwords, limited interfaces, SMA ID login & auto updates
- ISO 27001-certified cloud via Sunny Portal powered by ennexOS
- Fully compliant with EU regulations and leading security standards

The SMA Storage XL Package combines high-performance battery technology, intelligent control and a convincing service concept. Plug and play commissioning via the WebUI enables smooth startup. The package grows with your needs – whether indoor or outdoor, small or large projects – and integrates seamlessly into the SMA Commercial Energy Solution.

A 10-year warranty for the system and battery capacity creates investment security. Intelligent energy management increases self-consumption, reduces load peaks and uses scheduled-based control for high efficiency.

Security is our top priority: industry-leading cybersecurity, EU-based data hosting, and automatic updates ensure reliable protection.
